Subject: Well inventory from 2009 Groundwater investigation.

Attachments: [Groundwater Sampling 2009 Inventory.xlsx](#)

Gentlemen

Attached is the preliminary list of wells you requested at the December 4 meeting in Kalamazoo. This list includes wells and piezometers that were utilized during the 2009 Supplemental Groundwater Investigation. EPA is currently identifying wells for sampling and Piezometers (OW-..) for groundwater elevations from this list. A refined list with the sampling strategy and potential new well locations will be provided prior to further discussions with the City. EPA would like to meet with all of you again near the end of January. Would all of you be prepared to meet and discuss this well list by the end of January provided that you receive it by the week of January 14th? If that is a sufficient amount of time, please reply with your availability. If not, please propose later dates.

If you have any questions please contact me at (312) 353 8983

Thank you,
Michael

Michael Berkoff
